

Morpheus 8

Morpheus 8 utilizes radio-frequency energy to help restore your skin to a more youthful look by heating and tightening the skin. Whether you have wrinkles, acne scars or stretch marks, microneedling with Morpheus 8 can be the perfect treatment for you.

What Is Morpheus 8?

Morpheus 8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. This treatment targets the deeper layers of the skin to rebuild tissues and results in a natural anti-aging process.

Benefits Of Microneedling With Fractionated Energy

Fractionated RF energy is a scientifically proven method to reduce wrinkles and rebuild collagen and fat. Morpheus 8 is minimally invasive, using microneedling to renew deep layers of the skin with almost no patient downtime.

RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

What Areas Can Morpheus 8 Treat?

Morpheus 8 can be used on any areas that can benefit from sub-dermal renewal. The most commonly treated areas include the lower face and neck. If you suffer from wrinkles, stretch marks, discoloration or even acne scarring you may be a perfect candidate for treatment.

Who Is A Candidate For Microneedling?

Morpheus 8 can be used on all skin types to treat wrinkles, scarring, discoloration and more. The unique properties allow even darker tones to be treated than other devices.

How Many Microneedling Treatments Will I Need?

Each Morpheus 8 treatment is specialized to the patient, but on average you can expect to have between 1-3 sessions.

Results After Microneedling With Radio Frequency

Visible results can be seen within a few days, but typically after three weeks, the most noticeable results appear. Improvements continue up to three months after treatment.

Can I Wear Make-Up After Microneedling?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

What Kind Of Post Procedure Care Is Required?

Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad-spectrum sunscreen every day. In addition to reducing their future risk of skin cancer,

sunscreens also reduce wrinkles and slow the aging process.

How much does Morpheus cost?

Morpheus fees vary based on the particular needs of each patient, but usually range from \$450 to \$1,500. Packages are available to reduce costs for patients requiring a series of treatments.
